Explanations on the Operating Results and Financial

- 1) The Company's operating results in Q3 2023 were in line with the trend of the industry, similar to the first half of the year. The company's operating revenue in the first half of the year was 12,394,877,874.35 RMB, an increase of 30.70% compared with the same period of last year. This is mainly due to the recovery of the consumer and industrial markets.
- 2) The gross profit margin of the company in Q3 2023 was 76%, an increase of 1 percentage point compared with the same period of last year. This is mainly due to the rapid growth of the company's high-margin products, such as power semiconductors and power MOSFETs, and the improvement of the company's cost control.
